BREAKER AND CORRESPONDING
POSITIVE-OPENING-OPERATION DEVICE**

Examiner: Not Yet Assigned

OFFICIAL**INFORMATION DISCLOSURE STATEMENT (IDS)**Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed within three months of the U.S. filing date (37 CFR 1.97(b)(1)).

A copy of each reference on the PTO/SB/08 is not attached. The IDS is being submitted to ensure that all references cited in the European Search Report appear on the face of the issued patent.

Application No.: 10/791,732

Docket No.: 22106-00054-US

A concise explanation of relevance of the items listed on form PTO/SB/08 is in the form of an English language copy of a Search Report from a foreign patent office, issued in a counterpart application, which refers to the relevant portions of the references.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR 1.97(h), the filing of this Information Disclosure statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR 1.98 and the Examiner is respectfully requested to consider the listed references.

A copy of the modified Abstract of Disclosure received from the European Patent Office has also been submitted under separate cover for filing in the above-identified patent application.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 22-0185, under Order No. 22106-00054-US. A duplicate copy of this paper is enclosed.

Dated: June 22, 2004
20935_1

Respectfully submitted,

By Myron Keith Wyche

COMMUNICATION

The European Patent Office herewith transmits as an enclosure the European search report for the above-mentioned European patent application.

If applicable, copies of the documents cited in the European search report are attached.

☐ Additional set(s) of copies of the documents cited in the European search report is (are) enclosed as well.

The following specifications given by the applicant have been approved by the Search Division:

☐ abstract ☒ title

☒ The abstract was modified by the Search Division and the definitive text is attached to this communication.

The following figure will be published together with the abstract: 1

REFUND OF THE SEARCH FEE

If applicable under Article 10 Rules relating to fees, a separate communication from the Receiving Section on the refund of the search fee will be sent later.

ABSTRACT / ZUSAMMENFASSUNG / ABREGE

04075646.2

Described herein is a low-voltage circuit-breaker, which comprises at least one mobile contact (10) and a corresponding fixed contact, and a positive-opening-operation device. The positive-opening-operation device in turn comprises: a moving element (40) associated to the mobile contact; a first kinematic chain (50), operatively associated to said mobile contact and to an actuating device; and a second kinematic chain (60), associated to said moving element and to said first kinematic chain. A first lever (51) is associated to the first kinematic chain and a second lever (61) is associated to the second kinematic chain, said first and second levers interacting with one another during the opening operation and being equipped with blocking devices (70) in the event of welding of the contacts together.
